About me

An excellence scholarship awardee and a senior software engineering student in my penultimate year at the Mediterranean Institute of Technology. A quick-learner who is interested in Data Science and AI, and looking for opportunities to gain valuable knowledge and develop my skills while building projects.

Education

- **Mediterranean Institute of Technology** (Tunis, Tunisia) September 2020 - June 2025
Software Engineering Degree
 - Top highest CGPA of the cohort (3.86/4)
 - Excellence Scholarship
 - ABET Accredited program
 - Member of the Student Life Department
 - Tutor for Physics and Computer Science courses
 - Relevant courses: Computer Networks, Operating Systems, Database Management Systems, Distributed Systems, Artificial Intelligence
- **Pioneer High School of Sfax** (Sfax, Tunisia) September 2016 - July 2020
Tunisian Baccalaureate in Mathematics
 - Baccalaureate obtained with honors ("*mention très bien*")

Experience

- **Research Intern** May 2023 - August 2023
Mediterranean Institute of Technology (Tunis, Tunisia)
 - Collaborated in the authoring of a research paper focused on the fields of UX Design and Open-Source development.
 - Assisted in conducting an extensive literature review to establish the foundation of the research.
 - Collected related data, performed thorough analysis, and drew actionable conclusions for impactful research.
- **UI Designer** September 2021 - September 2023
Iberis (formerly Birou Suite) (Tunis, Tunisia)
 - Worked as a freelance UI designer for Iberis, and its clients.
 - Adapted to the company's Agile and iterative software Development Methodologies.
 - Designed different social media posts, and prototypes for mobile applications and websites.
 - Attended meetings with the clients to gather and understand their requirements.
 - Assisted with the Design process of different websites and mobile applications.
- **Web Developer Intern** June 2022 - July 2022
BluePen Labs (Tunis, Tunisia)
 - Carefully followed the different steps of the waterfall Software Development Lifecycle (SDLC).
 - Designed and developed a website using React.js.
 - Connected the website to a MySQL database through REST APIs developed with Express.js running on a Node server.
 - Deployed the project and hosted it online.
